## Change log

Version	Change log
1.0	Initial version

## Information

- Overview of the new features and changes in the products
- Products: GateManager, SiteManager, LinkManager8 and LinkManager Mobile
- Release firmware build: 8.4.18494 (GM: 8.4.18513)

## Highlights

- One Time password in GateManager
- 4G/LTE support credentials (Japanese marked)
- 8

## Advised to update

It is advised to upgrade to the current release if you use the features described in this New In Release document or if your scenarios cover some of the items in this list:

- Using 4G in Japan or SiteManager xx39 4G in general. Authentication (Username/Password) has been enabled for 4G connections.
- If you have experienced that LinkManager 8 keep showing "Detecting...." It is likely to be missing installation of a bypass proxy on local addresses. In 8.4 this will be done in next LinkManager8 startup.

## 1. GateManager

#### 1.1. One-time Password

Using the already existing Auto-password option, it is now possible to enable One-time Password for LinkManager Mobile accounts. As for Release 8.4 it is only LinkManager Mobile account types that support One-time Password. Later releases will enable One-time Password for all account types.

#### 1.1.1. Create the LinkManager Mobile account

Account Name: OTP_LMM				
Account Role:	LinkManager Mobile 🖕 💡 Assign license: 📃 💡			
Account Language: Description:	English			

For Release 8.4 only LinkManager Mobile account types are supported.

New password:			
Repeat:			
Auto password:	<b>V</b> 💡	SMS new password:	
Save Cancel			

Select the Auto-password option when creating a LinkManager Mobile account.

#### 1.1.2. Login

LinkManager				
GM4260				
Username:				
OTP_LMM				
Password:				
Login				

Login with the newly created LinkManager Mobile account.

LinkManager
You must accept Terms of Use to login.
You must accept the following Terms of Use before you can use the GateManager Server.
Hosting Server Terms of Use (view)
I have read and accept the terms
Z E-mail a copy of the terms to hkk@secomea.com
Continue
Logout

Read and accept Terms of Use and press continue.

#### 1.1.3. New password

ß	LinkManager
Chang	e password
You mus	st select a new password for your account.
Usernan	ne:
OTP_L	MM
New Pas	ssword:
s	how password
	Continue

#### Enter a new password.

If everything is setup correct the system prompt for new password and login is a success.

**Password requirement** is as server default 8 character including numbers (0-9) and letters (a-z, A-Z).

#### 1.1.4. One-time Password failure

If for some reason entering the One-time Password has failed the system will prompt to renew the password and a new e-mail or SMS will automatically be generated.

LinkManager			
GM4260 Login Failed			
One-time password has already been used for login			
Please specify the last 4 digits of your mobile number to receive a new password:			
Renew Password			

In case the password has already been used or the browser timed out or was closed before a new password was entered, an SMS with a new password will automatically be generated.

Page 5 of 7

If the user doesn't manage to login before the server configured "Autopassword Lifetime" has run out, an SMS with a new password will automatically be generated.

LinkManager			
GM4260 Login Failed			
One-time password has already been used for login			
Retry Login			
GM4260			
A new one-time password has been sent to your email.			
Username:			
OTP_LMM			
Password:			
Login			

If the user doesn't manage to login before the server configured "Autopassword Lifetime" has run out, and that SMS service is not enabled on the GateManager, an e-mail with a new password will automatically be generated.

#### 1.1.5. How to enable

This require server administrator rights.

Page 6 of 7

Tree Files Licenses	Server					
Status Log Mail	Config	Certificates	Routes	Tools	Backups	AL Password
GateManager Config Edit Basic Setup	uration					
> 🏯 WAN/LAN (Public/Private) Interface Setup						
DNS and NTP Settings						
🕨 📑 Go To Appliance / Re	lay Setting	IS				
🕨 🏹 Mail Settings 💡						
▶ 👔 SMS Settings						
🕨 📄 Server Backup						
👻 🚊 Account Settings						
LM Mobile Idle Timeout: GM Portal Idle Timeout: GM Portal Tree Sort Limit: GM Portal Table Sort Limit:	60 30 150 500	minutes	Default Accoun Blind Copy Mail LM Server Addr 5M Server Addr	t Language Address: resses: resses:	English	Ψ
Enable SMS Login: LM SMS Valid Time: Failed Login Max Attempts: Failed Login Lockout Time:	12 10 120	hours seconds	GM User Max In Auto-password	nactive: Lifetime:	12 8	hours 💡

Set the option "Auto-password Lifetime" to 8 will enable One-time Password for the Auto-password feature. Require administrator rights to access this menu and will be enabled for all LinkManager Mobile accounts on the server.

### 2. LinkManager 8

#### 2.1. # Licenses Container domains are now hidden

If the domain name starts with "#..." (example "# License Container") the domain previously was shown in LinkManager8 but not in LinkManager7. This is now aligned and LinkManager8 don't show these domains.
